

## Centralized print management capabilities

CZ Print Job Tracker provides centralized print management capabilities for businesses and education institutions through advanced print control, print monitor, print count, print quota and print audit capabilities.

CZ Print Job Tracker is a solution for Windows NT/2000/2003/Vista/2008/Windows 7 print-server and non-print server printing environments. The software manages IP printing or workstation-connected printers.

Monitor all the printing activity in your organization— understand and manage printing costs and save on unwanted printing costs. Accounting features allow you to handle charge-backs, control who is printing and how much is being printed, and identify the cost of printing across your entire organization.

CZ Print management, assessment and cost recovery software puts you in control.

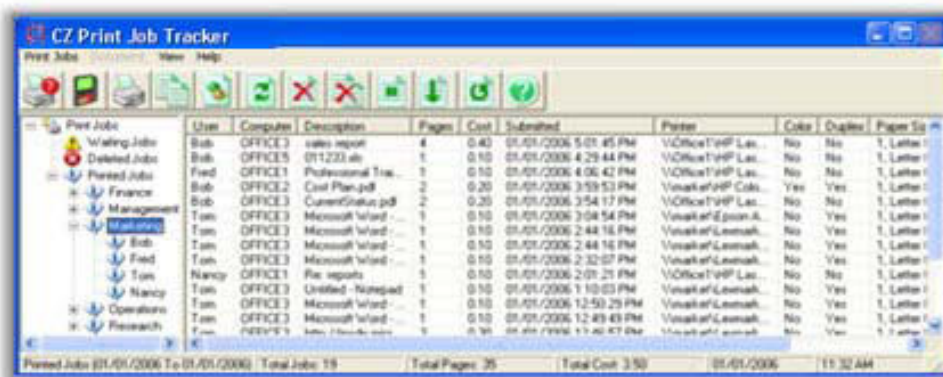

The *CZ Solution* is a powerful centralized print manager & print counter that helps automate and simplify the administration of printing for Windows print-server printing environments and remote IP printing environments.

- **Audit**—Capture detail print job information
- **Control**—Count, quota, log, control and charge printing
- **Report**— CZ Print Job Tracker provides a reporting tool allowing you to generate 100's of reports that can be exported in various formats, sent by e-mail, and viewed in a web browser
- **Charge**— Expense print jobs based on number of pages, monochrome / color, duplex and paper size
- **Notify**— E-mail and taskbar user notification

## Features and Benefits

Business and educational clients love CZ Print Job Tracker because it allows them to monitor user printer usage, maintain an updated print log and manage printer accounts without having to spend hours picking their way through paperwork.

- Saves, views and reprints the content of print jobs
- 100+ reports designed for print cost analysis and client billing

### From CZ Print Solution Customers...

"For auditing purposes, we use CZ print job Tracker 5.0 to monitor around 400 printers... it has allowed us to effectively keep track of all of our print jobs, help manage document output, control costs, and allocate expenses accordingly." Roger Gezmann, Coca-Cola Beverages

"CZ Print Job Tracker 5.0 has done a tremendous job on our campus of reducing printing costs... their tech support has continued to help us customize their product for us and the paper and toner savings will more than pay for the software in less than a year." Francis Heise, MBA, Customer Labs Manager, Central New Mexico Community College

"In a small architectural firm, the costs related to printing can easily take a sizable bite out of project fees and such a loss can be very difficult to absorb... We looked at several offerings, but found that CZ Solutions Print Job Tracker paired with Print Job Agent fit the bill perfectly." Michal Laird, Architect, Shaw Hofstra + Associates
